

October 4, 1946

YEARS SPORTS FOLLOW PATTERN OF PAST YEAR

Basketball and baseball will be the major sports scheduled for this year.

Students interested in basketball are to start practicing the middle of October with Principal Weaver and Miss Hildred Lewis, former basketball player for Middlesex, doing the coaching.

PLANS

Definite plans for the basketball schedule have not been made, but the team is to play the same schools as last year with two games a week. With the exception of Dolly Bunn, all boys and girls of last year's team are back in school this year. Before the regular season begins the team is to play neighboring schools.

BASEBALL

Playing one game a week, the baseball team will be organized for practice in the spring.

Athletic fees for those desiring a year's ticket to the games have been increased from 75¢ to \$1.00.

Paging Barnum And Bailey Scouts

Under its mystic power, the jump board holds big and little, fat and skinny, new and old boys and girls of the grammar grades spellbound.

According to the young acrobats, the favorite spot for jumping is right under the journalism class window, because they can put their board across a pipe lying under the window; and it seems that the favorite time to jump is when one is trying his hardest to write a news article.

The art of jumping appeals more to girls than the boys, therefore, in most cases, girls are better jumpers.

Bailey School boasts of experts in the field of jumping. One girl while springing upward in the air can touch the nose of her partner with her foot.

When around the jumpers one hears such commands as "cut the ice", "open the book", and "send you", as they perform various stunts.

One would suggest that Barnum and Bailey send to Bailey a scout who is looking for talent in the field of daring gymnastics. A performer deserving the center ring could possibly be found here.
