

CHILDREN STUDY INDIANS

The children in the second grade have been very interested in the study of Indians.

They have been reading about the Indian in their basal test book and library books. They have learned Indian songs and dances. They delight in making the Indian head-dress with its many colored feathers.

After making from paper the teepee, canoe, cradle and head dress, they enjoyed making an Indian Reading Booklet.

Happy Birthday

Carolyn Glover	2
Carol Marie Johnson	14
Richard Privette	9
Bobby Ray Bryant	13
Clara Dell Morgan	18
Phillis Jean Bisette	10
Sonja Lamm	25
Jerome Eatmon	3

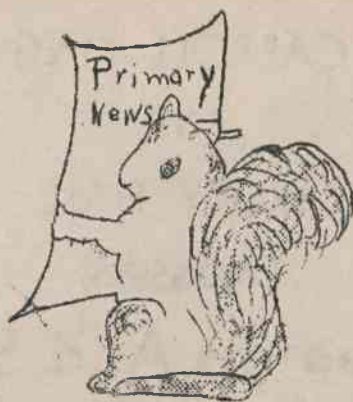

Home Ec. Girls Aid
Second Grade

Mrs. Glover's second wishes to express their appreciation to Mrs. Wilson and her home economics girls for making the lovely paper dresses.

The pupils enjoyed wearing the dainty varied colored dresses in the dance and have now put them away for safe keeping.

"Through the soft October air
Nuts and leaves are falling;
In the woodland everywhere,
Boys and girls are calling."

Eleanor Cameron

Grade Celebrates
Birthday

Mrs. Glover's first and second grade celebrated Richard Privette's birthday with a party given by his mother. Mrs. Brooks Privette brought a record player to school. The records played were, Mother Goose Songs, In The Beginning, and Little Black Sambo's Animal Band. Ice cream and cake were served. The pupils gave Richard their best wishes. They expressed their many thanks for a party.

Surprise Party Given

Little Tommy Gay and the first and second graders were very much surprised when Tommy Gay's mother visited the room. It was Tommy Gay's birthday. His mother served the class with ice cream and cake. Everyone had a very happy time.

Halloween

Halloween is lots of fun;
But somehow, I'm glad
when it's over and done.
I like to have mother
kiss me goodnight,
And know that the witches
have taken flight.

PRIMARY GRADE HAS
NATURE UNIT

In Mrs. Van Noppen's 1st and 2nd grades the children are enjoying Nature Study through collecting and observing plants animals and inanimate objects. Ferns, coleus plants and rubber plants are growing and gaining color from good soil, water and sunshine. Mrs. May and Celia Pitts brought several lovely potted plants.

Small Animals Make
Home In Garden

Many small animals and insects are at home in the indoor garden. Two snails with shells travel over the sides of the aquarium. Several green grasshoppers and a brown one live there. A big black woolly bear caterpillar is happy and busy. A big green caterpillar with a baby caterpillar nearby are attracting much attention. Even a horsefly is welcome. Butterflies give glamor to the scene. Gold fish, Winnie and Finnie, are the favorite objects of interest.

Among inanimate objects are Indian arrow heads of both slate and flint rock; an Indian hammer, some large toad stools, and a collection of shells, conch, clam cateye, and periwinkle.
