

Eight Gr. Visits Raleigh

On March 21, the entire eighth grade and its teacher went to Raleigh for the day. Those accompanying the group were Mr. and Mrs. Algier Lamm, Mr. and Mrs. I. T. Poole, Mrs. J. T. Etheridge, and Leslie Dew.

In the Capitol a visit was made to both houses of the legislature which were in session, and the class was recognized in the Senate by Lt. Gov. Ballertine. A high light of the trip was going through the Governor's office and shaking hands with Governor Cherry.

The class enjoyed a trip through the Museum, the Hall of History, the News and Observer and WPTF, and then had lunch at the S. and W. Cafeteria.

Before leaving Raleigh the group drove out to Andrew Johnson's birthplace and to the State School for the Blind where a special program was given by the blind children.

This day was voted a most pleasant, profitable, and educational one by all who went.

CLASS PLANS EGG HUNT

The fifth grade had an Easter egg hunt on April 3. Each child brought two or three eggs and colored them. Two of the grade mothers, Mrs. Clarence Harris and Mrs. R. W. Jones, served pepsi colas, ritz crackers with peanut butter, and cookies. Wiley Deans and Coline Bryant found six eggs each. They drew straws to see who would get the prize. Coline was the lucky one.

Everyone had a good time.

GRADEMOTHERS ENTERTAIN  
FOURTH GRADE

On Friday, April 4, at noon the fourth grade was given a weiner roast by our grademothers, Mrs. C. A. Brown, Mrs. Rupert Perry, and Mr. C.D. Brown. We wish to say, "Thank you" to our grademothers and to Mr. Brown for giving us such an enjoyable party. Everyone present had a very good time.

Did you know that on the 8th grade's trip to Raleigh:

Governor Cherry said to Vara Kay Bunn, "You're a pretty little girl"?

A Trip To Detroit

Friday morning, March 14, 1947, my mother, father, Bruce Finch, and his father left for Detroit, Michigan and Canada. From Detroit we went to Canada through a tunnel about two miles long.

We visited many interesting places. The Ford plant covers about three square miles. J. L. Hudson's store covers a city block and is seventeen stories high. One can buy almost anything there except an automobile. In Henry Ford's museum we saw a bicycle built for ten people. Byrd's airplane, and the car Ford gave the King and Queen of England to tour Canada in.

Our trip was a very enjoyable one. My sister came back from Detroit with us.

Fifth Grade Served

The fifth grade was served ice cream and cookies several days ago. This was sent by one of the grade mothers, Mrs. M. C. O'Neal. The class was sorry that she couldn't be with us at that time.
