

Let's Make It A Permanent Section

A forward step has been taken by the English department of this school. For the first time a "literary" magazine, edited by the members of the English classes and the staff and typed by the commercial department, is being included in this issue of the BUGLE.

We believe that the magazine will serve as an inspiration for the students and hope that it will continue to grow and become a regular annual or semi-annual feature of the BUGLE.

What Really Is Commencement?

Commencement day! To many seniors it represents completion of high school, but in reality it is a real commencing, a commencing of life for the graduate.

From now on he will be expected to solve his own problems, to answer his own questions, to be his own judge, and to set his own standards.

Commencement offers a challenge: What will one make of his life?

Good luck, seniors, and may your life be one of helpfulness and happiness.

Are Clubs Profitable?

Clubs are a vital part of the training of any student. Social clubs are purely for recreational purposes and to teach the art of play and fun. But art, dramatic, music, sport, and literary clubs develop responsibility and leadership, create initiative, reveal hidden talents, and act as stimuli to create greater school interest. This is made possible by students' planning programs, directing meetings, and assuming responsibility for the promotion of club activities.

Some students want clubs, but it will take the cooperation of many interested students, the school, and parents to make them successful. Shall we or shall we not have clubs?

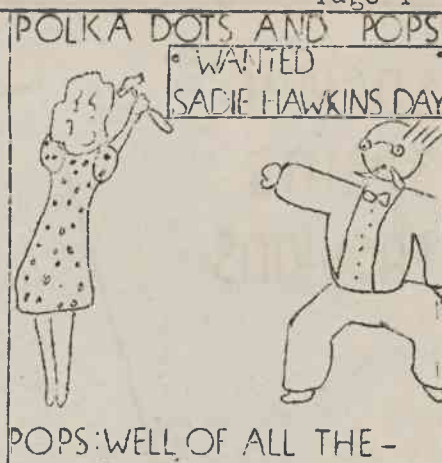

Jean B. Glover

Sports hold the interest of about 50 per cent of the student body here in Bailey High. Journalism consumes the time and interest of a few others.

The interests of the remaining students is so varied that the membership of clubs would be at a minimum. In a club with only a few members interest lags. There are few new ideas and little inspiration. Ere long the club dies "aborning."

There is also the time problem. Sports and journalism consume the activity periods of some of the students and two of the teachers. There are not enough other teachers to supervise various other clubs. Even if there were, many students otherwise engaged would be eliminated.

Barbara Farmer

Students Paraphrase Famous Abbreviations

- RFD--Real Friday-night Date
- AWOL--A Wolf On Loose
- AC--Always Carelessness
- PTA--Pretty Tough Affair
- FHA--Fun House of America
- ACL--A Cor's Loose
- CIO--Carefulness Is Observed
- Prof --Pretty Rough On Folks
- DA--Dull Afternoon

GOALS OF PAPER

- High standard of journalism
- True and up-to-date news
- Use of all students' names
- No gossip columns
