

Library Adds New Books

School library reopens with new books and resumes same plan as last year for issuing books to students.

New books for the library have arrived and are available for reading. Money for the new books came from library fees, over-due book fees, and excess book-rental fees

BIOGRAPHIES

A majority of the new high school books are biographies dealing with fourth year high school literature. Some of these biographies are Rudyard Kipling, Young Walter Scott, Rookie of the Year, Pasteur, The Way of an Eagle, and Son of Thunder.

PERIODS

The library works on the same basis as last year. It is open every period of the day except second and third with some high school student in charge.

The school is equipped with books for student reading, but the addition of more bookshelves is needed to accommodate the larger number of books.
