Rolling The Rim

Both boys and girls on the basketball teams would like to express their appreciation for the support of and backing from the people of the Bailey Community.

The local gymnasium was hardly large enough to hold the people supporting the Spring Hope and Bailey teams on December 9. The attendance made the income the greatest so far this season.

Practice games have been played with Wilson County schools. These teams were invited to exchange games because of the nearness to Bailey.

Bailey boys are boasting an undefeated and untied season so far. The girls have lost only one game.

A. Johnson, B. Glover Lead Teams To Victory

Anna Leigh Johnson, sophomore and center forward, was the "spark-plug" in a 26-24 victory over Castalia, Friday night, Dec. 5. Out of the 26 points Bailey received, she made 25. Manning led the losers with 18.

Points Necessary For Good Teams

In discussing qualities necessary for a good team, Coach Weaver states that cooperation alone is not sufficient.

First, points out Coach Weaver, the players must have ability. Hand in hand with ability go sportsmanship, love of game, and interest in the sport.

TEAM'S DEVELOPMENT

No team can ever develop, stresses the coach, if there are on the team members with a feeling of jealousy or selfishness. Playing for the team, not the individual honor, is an important requisite.

In the team there should be confidence, but never overconfidence. If there is, there are likely to be great losses.

High Scores To Date

Each issue of the BUGLE will carry the three high scorers of the boys' and girls' teams. This month's leaders are--
