

Lions Sponsor Extermination Campaign

Seniors Pick Invitations

Because of the property damage caused by rats in Bailey each year, the Lion's Club is sponsoring an extermination campaign. The project, financed by the town, will cover all homes and businesses.

The poison being used is composed of 50 pounds of fish, (ground), 50 pounds of red dog, and 50 pounds of poison. This mixture is harmless to cats, dogs, and

other animals and is free to any Bailey citizen requesting it.

The poison was used first sometime ago, but it will be available again in a few weeks.

Invitations and calling cards for graduation were selected by the senior class this week.

The invitations will cost approximately nine cents each.

Little Hankerings Of Students And Teachers

To have my hair cut in an barber shop.
