

### Businesses 'Spring Up' In Bailey

Several new businesses have been started in town of late and plans for more are in the making.

J.R. Massey's shoe repair shop has already opened, and a launderette owned by Seth Ferrell is expected to be ready for operation soon.

Plans for the opening of a combination doughnut, sandwich, and soda shop are being made by Mrs. Jack Collie.

### Mimeograph In Top Running Condition

Mimeograph's counting device receives an overhauling after being out of commission for several months.

After months of extra work because of faulty counting, the journalism class has been able to have its counting device overhauled.

#### PROBLEM

Every month previously the class was faced with the problem of having to run extra pages after putting a number of papers together, because of the shortage of some of the

pages.

Through the work of E. Thurston Smith, salesman for Gray and Creech, Inc., this problem has been solved.

#### RESULT

The result will be a saving in paper, as there will now be an even number of pages run.
