

### LUNCHROOM MIXTURES

Given to the lunchroom by the government, a cold beverage and peanut butter are served daily.

Two baskets in which to scald silver and plates have been purchased.

Sanitary cups, used for serving beverages since last month, help to keep the Grade A rating of the cafeteria.

Lunchroom curtains, formerly white, have been tinted green,

During the week before Easter, Jan Perry, Evelyn Batts, and Eloise Bogen decorated the dining room each day with an Easter scene.

To carry out the Easter idea, a plate of potatoes and English peas, placed to resemble a nest, Easter eggs, and jello were served.

Arrangements of flowers are used as table centerpieces each day.
