

## MRS. GLOVER'S ROOM ENGAGES IN MANY ACTIVITIES

Interesting activities carried on in Mrs. Glover's class this year, include the Rhythm Band, Halloween Play, Making Flower Box, Hobbies, Shadowgraph Play, and Finger-Painting.

The grade gave a program of Rhythm Band music at P.T.A. The boys and girls dressed in white and wearing red and white caps rendered a most enjoy able program. The grade won a dollar for having the highest percentage of parents present.

On the night of the Halloween Festival the class gave the play, "The Right Way to Celebrate Halloween."

Everyone should see the Flower Box in Mrs. Glover's room. The boys and girls have kept the flowers well watered and the flowers have grown rapidly. It is a beautiful sight to see the tall plants surrounded with wandering Jew. In with center of the table there is a bird perched on a small fence.

The children made a study, about hobbies. They decided to adopt collecting as their hobby. In connection with their reading they collected animal Pictures, Bird Pictures, and Queer As It Seems Pictures and made booklets.

Having Shadowgraph Plays is a most interesting activity. The class made a carton into a stage with white tissue paper as a

screen. A flash light was used to produce the necessary lighting. The animal characters and stories from their reading books were used. Giving the play was lots of fun.

The class had a good time with the new experience of finger painting. It is very fascinating. The class wishes to do more of that type of art in the future.

## STUDENTS LEARN FOLK DANCES

The fourth grade students have learned folk songs and dances in their music and physical education classes. They have learned dances of many different countries. Some of these countries are Norway, Sweden, Denmark, England, France, and America. They have enjoyed learning the dances very much.
