

Lions Club Renders Community Services

Seeking to correct community problems is the definite aim of the Lions Club, the largest organization in the world, according to the Reverend I. T. Poole, publicity chairman of the organization.

Mr. Poole cited the following projects as those heading the activities of the club: One of the "outstanding beneficial" events carried on by the club is the sight conservation program in which money is contributed to provide glasses for those who need them.

The White Cane Driver, sponsored by this civic organization, raises funds to help support the blind and the schools for the blind.

Rendered by the club to aid the people in morals and health are the clean-up projects, rat eradication program, and programs to improve the schools and roads.

Remarks Mr. Poole, "One fine thing about the club is that it provides fellowship for groups of leading citizens of the community."

Who Has Stilts?

Recommendation: That a pair of stilts be presented Mrs. E. T. Rouse by the high school students so that she can be recognized by all of us tall students. Bumping into her is embarrassing while hurrying down the hall to meet our next class.

Primary Dept. Busy with Holiday and Lessons

Chapel programs and Halloween activities have consumed much time in the primary grades this month.

Dramatizing "Little Black Sambo" to use as a chapel program and learning poems in choral speaking have kept Mrs. Floribelle Bynum's beginners busy.

Mrs. Effie Morgan Moore's second and third combina-

tion grade have been thinking of Halloween this month as they go about singing songs, learning poems, and cutting pictures of black cats, witches, and pumpkins.
