

### Mrs. Lewis Visits Son In Chicago

Mrs. K. F. Lewis, lunch-room supervisor, has just returned from Chicago where she visited her son Scott, one of last year's seniors, and heard him sing in a musical concert sponsored by the Olivet Methodist Church Choir, of which Scott is a member.

Mrs. Lewis, while attending the concert, heard familiar popular music drawn from the best musical shows of the past decade. One of these shows was "Brigadoon," a presentation which was on the entertainment agenda of the '48 staff that attended the Press Convention in New York.

The entire student body was glad that Mrs. Lewis decided to take a well-earned vacation.

Mrs. Lewis chose this particular time to visit Scott so that she would be there at the time of the concert.

### Critics About Equal In Judgment of Bugle

Favorable and unfavorable criticism of the Bugle after the publications of two issues runs about on a par.

The omission of the cover pages wasn't too favorably received by the subscribers at first, but now the critics are beginning to admit that the non-covers really make the Bugle look more like a newspaper.

From the student viewpoint the omission of names that should have been included in some of the write ups has been the source of much warranted criticism.

Improvement in mimeographing of the second issue has offset the adverse criticism heard about this phase of the publication.

Well-designed ads and news of interest have received favorable comments from all sources.

This paper shall keep its "ear" tuned to catch the remarks made and endeavor to be guided by them in so far as possible.

### Bus Replaced

Replacing old faithful, number one, which has run its route for a little more than seven years, is a new, modern Ford truck that joined the bus fleet this month.

### Principal Announces Fire Drills

To give students some idea of the steps to follow should a fire start, Principal M. W. Weaver plans to have regular fire drills.

At least one drill a month will be arranged. Mr. Weaver is going to work out a system where by all the exits will be so designated that everyone will know exactly which door to go out.

#### CHIEFS APPOINTED

Less than two minutes will be the time limited to clear the building. From each room a person will be appointed to lead his classmates through the drills.
