

Fashion Trends -- by Jackie Vicke

Football games, parties, and other gatherings bring out the "fashion" in us, and there are some veritable "spotlighters" this month.

SUEDE DRESSES

Surprised??? Don't be. Suede is the newest and latest material for dresses. It looks suede, it feels suede, but wears like a dream. There is no itchy, bothersomeness about suede dresses. They are soft, downy, and light. The blouse part is lined with a soft material for extra protection. You can wear these dresses in daytime or in the evening, on dates or parties, at football games--just anywhere that calls for informality.

SHEATH DRESSES

Now here is a dress-or jumper-that is conservative and delightful. It is slim with jutting pockets, platter buttons on each side, and a patent belt. For daytime, wear a blouse with it for the dress effect. In the evening remove blouse, add rhinestone pins or a necklace and you have a jumper for date-time.

PERFUME IN FASHION

Did you know that your perfume is as much a part of fashion and your wardrobe as suits or dresses are? Yes, it most certainly is!

Here are a few names of perfumes and their prices:(A collection of perfume bottles in different sizes and shapes seems to be a new fad.)

For your Sunday-best, GAY DIVERSION by Evyan is sweet. One-fourth ounce, \$5.

Romantic evenings would call for AMOUR-AMOUR by Jean Patou. One-sixth ounce, \$2.50.

To wear perfectly with your velvet party dresses there is TIGRESS by Faberge. Two and one-half drams, \$5.

If these prices seem out-of-bounds for your pocket-book, you can always get the cologne for less.

NINTH ENROLLS STUDENT

Lotis Joyner entered the ninth grade November 5. He is from Spring Hope high school.
