Class Boosts Grammar By Newspaper Writing

Wanting a change from the same day to day lesson, the first year French students published a newspaper, LES ECHOS FRANCAIS, last month.

Because of the monotony of the exercises, the class decided that publishing a newspaper would help it in every way. Increase of vocabulary, grammar usage, and cooperation are some of the benefits realized by the class.

With the completion of the first issue of the newspaper, the students plan to publish two issues before the close of school, one in February and one in April.
