

The Teen-Ager Speaks

Easter is here! The Easter bunny has checked on good little boys and girls. Clothing stores are full of shoppers gathering outfits for the Easter parade Sunday.

Chances are that there will be more flower-toned outfits for the teen-agers this year than any other color. Pink and blue have always been a favorite for all. Teen-agers have the eye and taste for these colors, because they're always gay and colorful. A light shade of green is becoming one of the many favorites as well as yellow. Violet seems to be a new spring favorite this year.

If you are planning to

MAY
Is the time
to plant....

RUNNING BEANS
