

Principal's Column

By M. W. Weaver

A recent pamphlet which came to me had a good thought on the meaning of Easter. Webster says that Easter is a festival of the Christian churches to commemorate the resurrection of Jesus. To the average man or woman it should signify that from death comes life.

Easter then should cause mortal man to try to do his best. If from death comes life, then by the same reasoning, out of failure should come success; out of despair should come hope; out of ugliness, beauty; out of sorrow, victory and happiness.

From Easter we can gain confidence because we never admit defeat. Despair, fear, and self pity will be unknown to us. Easter can teach us never to be quitters nor whiners, but we must lift up our chins and look steadfastly toward the light. We must never give up, but ever be alert to the right and manfully teach it.

The Easter message is a profound one. Let us take the lesson taught and become better people for it.

Senior Edition Next Month

The Senior Edition to the Bugle will appear in next month's issue.

The senior section will consist of four picture pages and possibly six printed pages. Photographs of the seniors and senior sponsor will be printed.

Festival Plans Advance

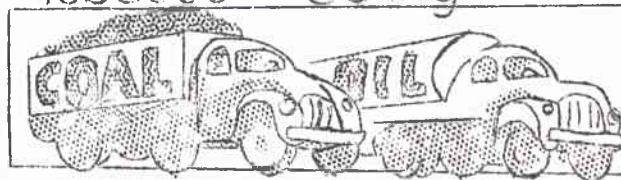

Work on the music festival planned by the grammar grades and the high school glee club for the May P. T. A. is steadily going forward.

A rhythm band composed of two or three grammar grades will present a few

numbers. Other grades from the elementary department will render vocal selections.

The high school glee club will select their numbers from their year's repertoire.
