

# Speakers Visit Seniors, Offer Three Types Of Work

To interest the seniors: in after-graduation vocations, three representatives of different fields of work have talked to the seniors.

Mrs. Jan Boles, Atlantic Christian College representative, presented to the seniors advantages in furthering their education and establishing themselves with a college degree, the conveniences of the college's loan fund, work offered, and scholarships available.

The immediate need of women to serve in the service was discussed by Sgt. Bland, a WAF. In addition, she told of the different fields of work

that were offered on the base, how one's education could be continued while in training, and some of the hardships to face.

A Marine, Sgt. Burnette, addressed the senior boys

and told them of the advantages and disadvantages to be had and the educational opportunities that could be obtained in the Marines and other branches of service.
