

Keeping Up With The Alumni

Focusing this month's alumni spotlight, I find turning events in the lives of Percy Lee Liles, Jessie Mae Dew, Frank Lewis and Eldred Perry.

PERCY LEE LILES, '38, visited in Bailey this

month. With him were Mrs. Liles and their two daughters, Judy, 2, and Becky, 5. Percy is a Captain in the Naval Air Force and leader of a jet squadron of twenty-five young men headed for combat in Korea.

FRANK LEWIS, '48, and Katy Boykin, '51, from Rock Ridge, will become man and wife at an informal wedding May 25 in Noble's Chapel. Frank will graduate this summer from Greenville College, where he is majoring in business administration. The public is invited to attend the marriage ceremony.

ELDRID PERRY, '51, seems to have his idea of an ideal job with the Branch Bank and Trust Company of Wilson.

JESSIE MAE DEW, '51, is now Mrs. Billy High. No doubt the mandolin is Jessie Mae's favorite musical instrument since Billy plays one.

Display Brings Washington Tour To School

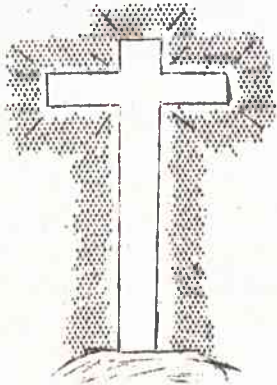

That fellow students may have a vivid picture of the tour of Washington taken by the journalism class is the motive of the staff's display of picture post cards, maps, souvenirs, and itinerary schedule exhibited on Mrs. Howard Farmer's board.

The design of the exhibit came from a display for tracing manufactured goods on railroad routes across the nation seen in the Smithsonian Institute.

Class members donated material for the display.

Personal features are a card autographed by Senator Willis Smith, soap from the Houston and Ebbitt hotels, matches from the Lotus Club, and a silver souvenir cup.
