

# Tenth English Edits Book

In connection with a unit on the library, tenth English classes, A and B "published" a book entitled The Library, so that every member might acquire the "hows" of library manners and the knowledge of how to use a library beneficially.

All members of the tenth grade English classes, taught by MRS. HOWARD FARMER and MISS IDALIA OGLESBY, contributed something to the publishing of the books.

Some brought illustrated pictures; some gathered appropriate quotations; all wrote themes relating to various phases of library activities. The books were composed of pictures, themes, diagrams of the library, and other mater-

ial brought in by the members of the class.

Chapter headings include such topics as Library Manners, Reference works, the Dictionary, the Dewy Decimal System, Card Catalogue, and Pamphlet File.

A second motivation prompting the project was to give the class an understanding of the make-up of a book from the title page to the index.

"We hope someday our book will be as helpful to someone else as it has been to us," states one of the prefaces.

WHAT--Barbecue Dinner  
 WHERE--Masonic Hall  
 Bailey, N. C.  
 WHEN--Nov. 4, 11 to 2  
 SPONSORS--Eastern Star  
 PRICE--\$1 (One) per plate
