

Fashions and Fads

VIVIAN GLOVER

Hello there! I've got simply "heaps" of fashion news to let you style abiders in on.

I hope the junior and senior girls saw the Popularity Queens in their beautiful evening dresses on stunt night. Those gowns surely gave me a good idea of what will be worn at the Junior-Senior Banquet.

GAY, FALL COLORS

ANNALEEN MEDLIN and CAROLYN HOWELL are doing their part in bringing out pretty fall colors. Have you noticed the lavender and purple outfit Annaleen wears and the pink sweater and black skirt Carolyn has been sporting around?

Two of the popular top-pers I have noticed being worn, and found in shops, are made of velveteen and poodle-cloth. They "spice up" drab outfits and are tailored for school and date wear.

Don't give Dad a bad time if he refuses to buy you a new dress every month or so. We must understand that money is a problem prevalent all over the nation and we should do our part by limiting our wants.

NEATNESS COUNTS

One good way to help is to give your clothes the best of care and keep them looking fresh and dainty. If clothes are kept clean and you wear them well, no one will notice whether they be new or old.

It has been said, "It's not what you wear, it's how you wear it." That statement has proved true.

BOYS' DEPARTMENT

JAMES PAUL STOTT and

WAYNE LAMM are flashing the "cat mofit", a favorite hair style for boys. This is one characteristic of a Be-Bop.

Very few boys have adopted this fad. JENNINGS NIXON, CORNELIOUS BOYKIN, and REX VICK seem to like

the neat, sporty outfits.

The girls like both styles, but they seem to go for the neat, simple outfit, a style that is here to stay. Be-Bop, like all other fads, is classy for a year or two and then gradually fades away.
