

## Course Serves School Sells Supplies, Popcorn To School To Benefit Students

To be able to treat injured or sick students more effectively was the objective of the Home Nursing Course taken by Frances Wilson, home ec. teacher, and Mrs. Ruth Underwood, sixth grade teacher.

Mrs. Loretta Roberts, of Atlanta, Georgia, an authorized Red Cross demonstrator, taught the 30 hour course at Nashville each afternoon last week.

### Tips For Teens

Do you teen-agers have a record player? Well, how's your collection of records? It seems there are quite a few records made these days just waiting to be bought by us teen-agers. The hillbilly music has captured the fancy of us young people today.

Since Thanksgiving is just around the corner, let's thumb through that old record collection to see what old tunes we can refresh in the minds of our friends. Those old records hold many pleasant memories for all.

An idea: give a party and exchange records for a while.

As most of us are learning to dance, a teen-age get-to-gether for dancing with music furnished by the record player would have a strong appeal and satisfy the party desire.

Don't let those wonderful pieces of music go to waste.

Early morning and lunch period are busy hours in the supply room of the school, as it is these hours that students may purchase supplies from the school store or buy bags of pop corn.

Peggy Liles opens the School Store each morning at 8:15 and sells such supplies as pencils, paper, and notebooks to 8:45

Peggy receives \$1.00 per week for her work, or her lunch money, she affirms.

In addition to Peggy, Donnie Edwards and George Thigpen sell popcorn at the noon hour. Mrs. R.G.L. Edwards, eighth grade teacher, supervises these boys.

The proceeds from the supply room and pop corn go into the general school funds.

### BUGLE To Enter Contest For Tenth Year

This will be the last edition of the Bailey Bugle to be submitted to the Columbia Scholastic Press Association Contest for school papers and magazines.

All newspapers must be entered by December 10, a month earlier than previous dates.

Two copies of each issue since Easter, 1952, are to be submitted for judging.

Placement ratings will be announced during the annual convention, March 12-13-14, 1953. Members will receive their certificates not earlier than one month after the convention.

### Superintendent Expects Completion Of Bldg; Dec.

If all goes according to plan, the lunchroom-home ec. building will be ready for occupancy sometime in December, reports Superintendent Opie Brantley.

At the present time, the workmen are busy laying the celotex ceiling, building cabinets for the home-ec. department, and installing the heating system.

Windows and birch doors have already been installed, and the supply room for the lunchroom is completed.

After the carpenters finish what they are doing, there will remain to be done only the laying of the floors and the covering of the cabinets.

### Students Use Gym; Receive Soccer Balls

Soccer balls and new games encourage grade students to play "more successfully" in and out of the gym during the activity periods, say the teachers.

Students are being taught games learned by the teachers at the physical-ed. shop attended earlier in the month at Nashville.

Children playing in the gym must wear tennis shoes or heavy socks and be supervised by a teacher at all times.

Soccer balls for the grades have been purchased.
