New physical ed. equipment, teaching aids, waste baskets, and library books are among the items added to the school this past semester.

Nearly all grammar grades have had new soccer balls, base balls, soft balls, or other similar outdoor equipment. Waste baskets and new library books have been placed in almost every room.

In high school, MISS EDITH FARMER, math teacher, has a new graph chart. A blackboard and a pencil sharpner are additions in COACH BEN WETHINGTON'S room. MISS FRANCES WILSON has received a new ironing board and filing cabinet to be used in the new home economics department. Several high school rooms

have new wastebaskets.

PRINCIPAL M.W. WEAVER has received for his physics class numerous items including a slide rule, movement apparatus, cohesion plates, surface tension apparatus, adhesion disc, centrifugal hoop, color disc cardboard, hand air pump for valcumn and pressure, vacumn wax, air thermometer, 3 linear expansion rods, conductometer wires, pith balls, battery, neon glow lamp, flourescent minerals, seven types of test paper, ammonium hydroxide, potassium nitrate crystrals, sodium nitrate cure, and alcohol lamps.

In the English and journalism room a fold-away work table has been built so as to give more work space when needed.
