

Tips For Teens..... BRUCE FINCH and FEGGY LILES

Are we conscious of how our clothes, our popularity, and our personality reflect in the eyes of others?

CLOTHES

Everyone knows that clothes do make for popularity---I don't mean a huge expensive wardrobe. It's not the price we pay for our clothes but the ability to choose them wisely.

If you feel that your features are unattractive and you decide you may as well give up, STOP and STUDY yourself in the mirror. Everyone has at least one good feature. FIND IT. Then choose your clothes, make-up, or hair style so that you accent that feature above all others; and your friends won't even notice your less attractive ones. Style of clothes can do wonders toward increasing our popularity.

POPULARITY

The type of girls boys like are ones that aren't always filling the conversations with "CHIT-CHAT" about others, forcing their attentions on the boys with their popularity, family, or rich friends, or discussing other dates when they're out with another boy. Futhermore, boys don't like girls who try to be individualists. Rely on him for something now and then, girls; have a good sense of humor and be a sport. These are qualities each boy or girl admires in the other.

If you're brooding over an unhappy experience or some small "CHICKEN FIGHT"

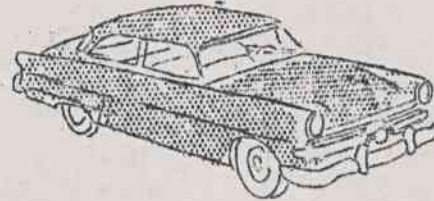

with your girl or boy friend, remember everything happens for the best and life's too short to dwell on your heartaches. Get back into circulation with the crowd, because whether you realize it or not someone is waiting for

you.

How well we can do this indicates our personality plus or minus.
