Hi, READERS!

I am featuring several pictures this month to give you an idea of what is in the news about EASTER outfits.

TOPPERS

Toppers are tailored to give that round-shouldered, pyramided look. One of the most outstanding ideas of the coming season about toppers is the shawl collar (illustrated). Fleece will be the preferred material.

COLORS

Be prepared to look forward to a big year for a wide range of colors. Pale shades will be outstanding. Among these are blue, pink, sand, coral, brown, beige, navy, white, and yellow.

Make the most of EASTER wearing a new fashionable outfit.

SUITS

Suits, differing from dusters and toppers, have slenderizing lines. The skirts are either straight or pleated. Jackets may have that new straight cut-away style (illustrated) or be belted. Shawl-suits are already popular.

DUSTERS

Dusters may be purchased with a matching dress or bought separate. The duster-dress team, made of faille, will give a flattering effect.
