

## Seniors Answer Call To Repeat Class Play

Because the senior play proved to be Just Ducky when presented here last week, the cast was requested by a committee from Mt. Pleasant to give a repeat performance in the school auditorium there Tuesday night for the benefit of the Community Building.

The prediction made by the inviting committee that "the play was enjoyed so much that a full house would greet the cast at Mt. Pleasant" proved to be an accurate estimate.

Contrary to the general run of contracts, the one entered into by the seniors was a 75-25 split of the net proceeds in favor of the building committee.

This agreement added \$36 to the building fund.

## Guarantee Adds Machine To School's Equipment

By means of a guarantee with the company which is furnishing drapes for the auditorium windows, the PTA made it possible for the school to add a new recording machine to its equipment, confirms Principal Weaver.

This new tape recorder is for anyone who wishes to use it. The purpose of the machine is to help students improve their voices for reading and speaking by recording their voices and hearing them played. In this way they can detect their errors and improve them.

## Practice Needs Demand Two New Typewriters

"Because of an increase in demand for typewriters to practice during laboratory period, it became necessary for the commercial department to purchase two new Royal typewriters," reports Mrs. L. T. Lassiter, head of the

commercial department.

The machines were paid for with the two-dollar-typing fees collected monthly from the students.

The unexpected demand for available machines for practice necessitated buying two more machines.
