

### Com. Dept. Purchases Pres-To-Line Attachment

Faster reading and more accurate typing is the goal set for typists; thus, a new Pres-to-line machine has recently been purchased for the commercial department.

A Pres-to-line, line-spacing machine increases the speed and efficiency of the typist by helping her to read faster.

This machine permits the typists to space one, two, three or four spaces.

Pres-to-line spacing provides front, eye-level reading, line by line spacing, and instant adjustability to individual requirements.

### Turkey Dinner Coming

Turkey was on the menu for the Wednesday before Thanksgiving lunch here at school, but the turkey didn't come and there had to be another menu planned. Replacing the original menu were:

- Spiced ham
- Cranberry sauce
- Navy beans
- Potato chips

Fresh bread--as much as wanted

Plain or chocolate milk  
Home made chocolate cake  
Dinner was served to a total of 411 students and teachers. Out of these 281 were free lunches.

"Turkey with all the dressing" has been planned for Christmas dinner.
