

Gleanings

By Betty Lou Brown

In scanning through the exchanged papers, I find revealing facts relative to what other schools are doing.

MHS RUMBLER, Middlesex

30 boys and 30 girls were interested in basketball this year.

HOPE'N PRINT, Spring Hope.

"Borrowed Briefs" was an article in their paper with interesting news about other schools.

THE BARKER, Martinsville

Varsity, Junior Varsity, and a 125 pound football team are the three football teams this school boasts of having.

THE HI-LIGHT, Rockingham

"Babies of '36 Became Editors of '53" was interesting. There were pictures of the editors when they were babies--a clever idea.

FREMONT HIGH SCHOOL,
Fremont

Pictures were used to illustrate the central idea of the different editorials. This vividly drove home the point.

VIKING, Atlantic City

ACHS had 80 improvements installments, and additions this past summer.

THE NEWSHOUND

Santa Barbara

Seven majorettes! They should be very proud!

EYE SEE, Elmhurst

550 students were enrolled on September 10 when the doors were opened to welcome them.

These papers were the October or November issues.

Parents' Visits Drop

Dropping almost 50 per cent were the number of visits made by parents to the school following the giving out of report cards this month.

At the close of the first six weeks 36 visits were made on the Tuesday designated as a special visiting afternoon.

Only 21 visits were made at the end of the second grading period.
