Five Students Enter Conservation Contest Events In Brief

Keith Vick came out on top in the local speaking contest entitled "Life and Soil Conservation", sponsored by the Nash County Soil Conservation Service. She will represent the school at the contest in Nashville the last week in April.

Five students from Bailey participated in the contest. They were Keith Vick, winning first place; Louise Wells, second place; Mary Ella Glover, third place. The other two were Katherine Whitley and Roland Stone.

These five made their presentations in chapel a week ago. Mrs. Howard Farmer and Willis Finch served as judges.

In announcing the decision, Finch pointed out the difficulty faced in deciding between speaker 1 and speaker 2 for first place.

All students in the freshmen and sophomore groups were eligible for the contest.

To create interest among the high school students in soil conservation problems, the Soil Conservation Service of Nash County offered prizes to the best speakers.

The prizes were contrib-

uted by people in the locality of the schools. There were three local prizes of \$15, \$10, and \$5 given to each school, and three additional prizes of \$25, \$20, and \$15 will be given by the county to the three top county contestants.

PLAY INSPIRES BOYS

Boss wishes to congratulate Miss Oglesby on her efforts toward inspiring some of the junior boys to do some shop work. These boys--Thomas McKeel, Ted Morris, Bobby Dew, and Louis Davis--made the stage scenery for the junior play, "Believe it or not!"

Mr. Edwards was bragging on his new clean floor in the chemistry lab to shop members one day and telling them how dirty their floor was. Result--last week the boys got busy and gave their floor a thorough clean-up and waxing.

Raymond Eoykin, Henry Brantley, Billy Glover and Corney Boykin assisted some town men in sanding the Club House floor.
