

# Fads In Fashions - - -LANE FARMER

Hi, and holiday greetings!  
Once again the Christmas season is here, and it has enticed many to buy new garments for their wardrobe. The reason for this is the variety of lovely Christmas styles and colors.

For the Christmasy look some girls have bought red wool or velvet jumpers. These they can later wear to school.

Not quite as practical but pretty are the lovely taffeta dresses and the matching velvet skirts and blouses that many of us can't resist.

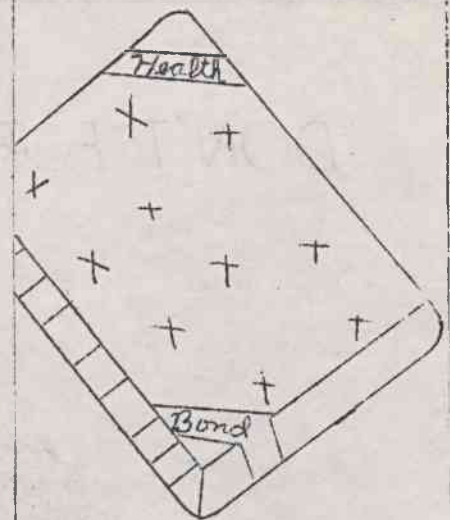

To trim up the old sweaters, fur or jeweled collars, or perhaps a Christmas corsage or character can be worn. The jeweled sweater, if not over done, is very striking and blends in with the holiday, season.

If you are buying a new

scarf, don't get just an ordinary one. The new look is a long rectangular-like scarf that can be draped over head, then around the neck if desired.

The neatest boy and girl of the month are Joan Brannon and Rex Vick.
