

Senior Gift Improves Ground Appearance

Complying with the present trend to beautify Bailey, the senior class, backed by Miss Edith Farmer, their sponsor, has set out 27 pieces of shrubbery along the front of the school building. This project, totalling \$166.70, represents the seniors' gift to the school.

Using a tractor, Jimmy Bennett cut up the plot, and others chopped, raked, and filled in to get the soil ready for planting.

WORKING HOURS

Study halls, after school the class set out four types of hollies, two types of camelias, asmanthers aquifolia, and pyrachontha formosana, making a total of 27 plants. Senior girls brought buttercups and daffodil bulbs to plant among the shrubbery.

The entire plot was then fenced in by aluminum painted posts and chains.

DINNER PARTY

At Collies', Wednesday Night, March 28, the seniors, sponsor, and Principal M. W. Weaver celebrated the completed task by a dinner party.

FACULTY TO REMAIN SAME

Unless there is the possibility of someone's handing in his resignation before the beginning of the school year, all Bailey teachers will be returning. At the April meeting Bailey committeemen relect teachers.

SENIOR GIRLS 'BABY SIT;' PARENTS ATTEND PTA

To make it possible for parents with small children to attend PTA meetings, the senior girls have cooperated by keeping in one of the classrooms the children that have to come with their parents.

Guiding the PTA for the 1955-56 term are Mrs. Pearly Horton, president; Mrs. Raymond Finch, vice president; Mrs. Lewis Watson, secretary; and Mrs. Jack Dew, treasurer.

Programs for the year have included speakers, panel discussions, a band concert, and the observation of Founders Day.

From money raised at the Halloween Festival the PTA has contributed \$692.79 for the purchase of band instruments and music books.
