DENTIST WARNS PARENTS

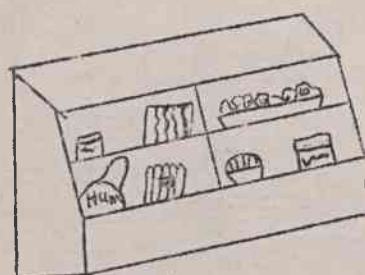

After 565 treatments, Doctor A. B. Edwards, dentist, expressed his opinion of the daily care of teeth by saying, "Students around Bailey aren't looking after their teeth."

During the two weeks Doctor Edwards was here, he treated 209 of the 231 inspected.

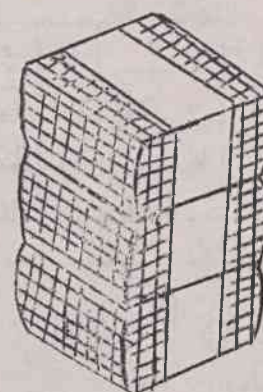

He extracted 44 teeth and cleaned the teeth of 130 children.

He stated that the teachers were "very cooperative" and the students were "very good" in the chair.
