

Hobbies, Hobbies

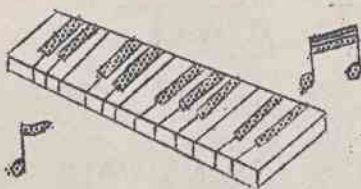

By Beth Harris

WEBSTER STATES: "A hobby is a subject or pursuit in which one takes absorbing interest." Do you agree with Webster? Evidently many of the students of Bailey School do, as their interest reveals.

There are those that could be classified as educational hobbies. Jasper Horton uses his leisure time working crossword puzzles. Alice Issette has collected stamps from many foreign countries. Celia May has post cards from all forty-eight states and

over five foreign countries.

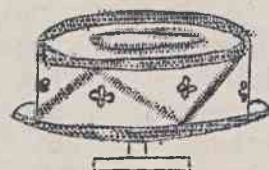

Janet Weaver, Louise Wells, and Kaye Wiggs get profound pleasure from playing the piano. Richard Privette loves musical instruments and has made playing them his hobby. Many students like dancing. Audrey Finch, Katy Horton, Diane Tapp, Sara Peele, and Andrea Bisette love the new "Rock and Roll" hits they hear on the radio.

Lane Farmer has a most unusual hobby. She spent many enjoyable hours learning the art of hypnotism and says, "It really works!" Jo Ellen Finch and Sonja

Manning find that correspondence with the Japanese is a very informative hobby.

Jimmy Dew, Beth Harris, Christie Finch, Hodges Privette, Gwen Burgess, and Keith Glover all agree that "Nothing beats basketball."

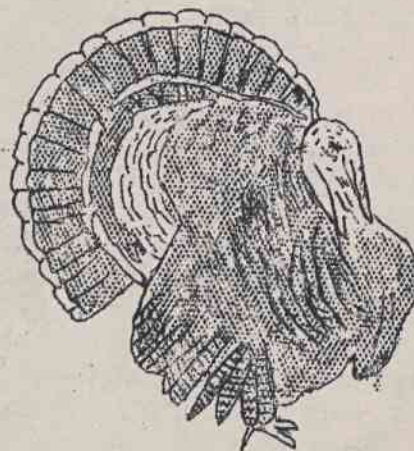

Having talent in the art field, Jimmy Wells, Jr. would like to make his hobby his profession by becoming a commercial artist.

Craven Gay has a very unusual hobby for a boy. He spends his leisure time cooking cakes and cookies and he shares them with his teachers, we hear!
