POLIO VACCINE AVAILABLE

Have all Bailey children been vaccinated against polio? If they haven't, The National Foundation for Infantile Paralysis insists that parents get them vaccinated as a protection against "this disease."

There is enough Salk polio vaccine for everyone, yet the Foundation points out that "so very few children and young people have been vaccinated."

If a child is in the under-20 group and has not been vaccinated, "Parents", the Foundation says, "owe their child the needed protection."

"Let's finish the job," the Foundation pleads.
