

Frosh Wins Trip To 4-H Convention

LYNDA STRICKLAND, a freshman appearing as a talent delegate in the 4-H Club Congress at Chicago, was awarded the trip by United States Rubber Company.

The twenty talent delegates performed at the "Share the Fun" breakfast on Thursday morning. Lynda displayed her talent by doing acrobatics for three consecutive minutes.

During the one week spent in Chicago, Lynda attended an ice show in the Boulevard Room at the Conrad Hilton Hotel, where she was staying; a friendship party in the Aragon Ballroom, the largest ballroom in the world; and a breakfast given by the people of Firestone.

Which Are You? - - - - - BY KAYE WIGGS

We, the students of the schools in the United States, take our schooling for granted. Suppose we had to do as the Japanese. They want an education so badly that if they fail the REQUISITE test that gives them admittance to college, they sometimes commit suicide.

Lazy Impudence is an example of the opposite side. He makes DELIBERATE attempts to DEVISE some way to skip school. He is FLEXIBLE and HUMILIATES himself by being led into some wrong doing. He is always involved in some VIOLATION of the rules, and blames the teacher if he is not EXEMPT to participate in school activities because of a D on conduct. If the teacher tries to CONFIRM his faults, she "is PREJUDICED" against him. He never has any money to buy school supplies but is a LAVISH spender on refreshments. He can't get up his assignments at home because he has to work, yet he BEQUILES his study hours away. He makes a teacher think her job is FUTILE.

But then there is the ARDENT type, Art Aspire, who is always searching for some way to help himself prepare for the future. He is the type that always wants to have a HARMONIOUS ENVIRONMENT in his home, his community, and his school, and COMPLIES with the instructions that are given him. He tries to AVERT quarrels. He is full of INTEGRITY and ASPIRES to the greater things in life.

This is a picture of two kinds of students of today Which are you? (Vocabulary words at work. Ed.)
