

# CHALLENGE TO YOUTH

Students often wonder if it will be worth while to finish high school. They particularly wonder about college. This decision and affect a person's entire life and the life of our country.

Today's world is much more complicated than the world of our parents. Each hour spent in school will better enable us to cope with today's complexity.

With the stress on world prestige, as it is today, we must strive for education of our youth. We must strive for achievement and supremacy in our schools.

Many of today's youths will be tomorrow's leaders. It is our duty to our country, as Americans, to be a good leader. A good leader must have a good education.

If our nation is to remain on at the top, as it is today, education of all its citizens, both leaders and followers, is vital.

To be a good American, worth of our heritage, is a life long job. We cannot wait, we must begin today to work and to study, to take advantage of the educational opportunities offered us.

## TO DEAR OLD BAILEY HIGH

The Seniors of sixty-one  
Have had a lot of fun,  
But now its time to go  
And we thought you'd like  
to know.

No matter how far we roam  
We'll think of you as home.  
Our wishes and our prayers,  
Our memories and our cares,  
Will be within your walls  
No matter what befalls.

The joyous days we've had  
All mingled with the bad  
Seem short and far away  
But they will always stay,  
For deep within our heart  
We'd rather not depart.

But we have lives to live  
And contributions to give.  
With fond thoughts and a  
sigh  
We bid our last goodbye  
To dear old Bailey High.
