Fifty Cents Per Year

## New Marshals Will Take Over For Graduation

Miss Janie Ipock, adviser to the Junior Class, announces that the following fifteen juniors, having made the highest scholastic averages for their first two and one-half years in high school, will serve as school marshals for 1942-'43; Jean Branch, chief; Martha Rosenthal, assistant chief; B. W. Allen, Elizabeth Hardison, Ned Hart, Margaret Holt, Virginia Kelly, Hilda Liles, Dorothy Loftin, Mildred McLawhorn, Hilda Person, Pat Stanley, Betty Weil, Helen Whitley, James Whitley.

These marshals will begin their duties during commencement. Next year they will serve at public gatherings in the GHS auditorium.

## 2 New Members Added To Board

The Defense Board members and their committees are still beginning and ending drives to help their favorite Uncle. J. D. Pike, chairman and Miss Martha Glazener, adviser, continue to assist the defense committees with their many problems.

### Used Stamp Drive

Betty Reaves, newly appointed chairman of the Used Stamp Drive, and newest member of the committee, has already collected and given numerous stamps to the DAR's, who in turn have mailed them to New York. The members of this committee are: Joyce Bridges, Joyce Waters, Martha Edgerton, Shirley King, and Barbara Yelverton with Mrs. W. H. Freeman, adviser.

### Nutrition

A total of 920 well-balanced lunches were bought in the GHS cafeteria during the first week of the Better Food Campaign as revealed in a survey made by biology students.

The survey also showed that 172 unbalanced lunches were bought during the same week.

The Nutrition Committee, recently organized with Ann Thompson as chairman, plans to check lunches every two weeks to see if students are still eating well-balanced lunches. They also plan to keep food facts before the students. Other committee members are Nona Pate, Agnes Hendrix, Evelyn Crews, with Miss Lena Taylor, adviser.

The menu records which were filled out by Sophomores, Juniors, and Seniors for a week have been collected, but had not been checked when the *Hi News* went to press. The records will be checked by the home economics students to see if students are eating the right kind of food and a sufficient amount.

### Scrap Metal Drive

A total of \$94.99 was made from the waste paper and scrap metal collected on Salvage Day under the auspices of the Senior Class on March 7. Dickie Weatherly, chairman of the Scrap Metal Committee, has been dropped as a member of the Board, as his work has been finished successfully.

### Waste Paper Collected

The Waste Paper Committee collects paper from the various home

## Junior Play, "Spring Fever," Three-Act Farce, To Be Given By Twelve-Member Cast Tonight

—Photo by Ed Strickland.

Evidently the group of students above are taking the title of the Junior play seriously, but why shouldn't they? As the cast of "Spring Fever", they have really been on their toes during rehearsals under the direction of Miss Mary Ann Gatch. Tonight, when the curtain rises at 8:30, all traces of laziness will vanish and they will go through the play very much alive.

Left to right, standing: William Hicks, George Rivenbark, George Futrelle, Ellis Blann, Reid Maynard, and Frank Roberts; seated: Dot Loftin, Elizabeth Hardison, Martha Blue Purser, Justyne Barbour, Martha Rosenthal, and Jean Gibson.

## Juniors Close Week's Activities By Enacting Scenes From Play

"Move over, Seniors! Carry our trays, Sophs! Freshmen, ya gotta help us!" This, dear readers, is the Juniors speaking to the rest of the school. Why? Because it's Junior Week! Junior Week for that class that's presenting "Spring Fever" tonight in the auditorium at 8:30.

When Miss Ipock's room passed out in assembly Tuesday it was the beginning of Junior Week. Her entire room one by one dropped off into a faint. The doctor came and explained that they were the fabulous victims of that common disease, *spring fever*. After this, Mr. Gaddy read the proclamation, in the form of a quarantine, giving the Juniors the choice seats in assembly and the position of first in the lunch line for one blissful week. The Seniors willingly gave these privileges to the class of '43.

### Radio Programs

From then on, the Juniors really went to town! Two radio programs were given, publicizing "Spring Fever". One, given in the morning, reviewed past Junior Plays, and the other, given at night, (Ya heard it, didn't ya?) presented character sketches about the cast.

Another snazzy assembly was held on Thursday, featuring those glamour gals of the class of '43, "The Black Faced Darlings of GHS," in a super dance routine. Original songs and stunts were also used on the program.

### Parade

A horse and buggy driven by Juniors was the outstanding feature of the parade that followed the assembly. Dressed in green and white, the entire class marched all over uptown, led by the band, an ambulance, and a float with the cast seated on it.

Skits from the play will be given today, (poetic, aren't I?). So all you studes will have a chance to see what a spiffy play "Spring Fever" really is! Be seeing ya tonight in the auditorium at 8:30!

## All Except Four Boys Pass Physical Exam

Only four boys out of the 112 who took the physical examination given recently by well known doctors in Goldsboro are having to take a restrictive program under the Physical Education course because of some physical handicap.

Nine cases of faulty teeth, 29 cases of enlarged or diseased tonsils, and 19 cases of flat feet were discovered—defects the boys will be urged to correct themselves. However, these defects will not exempt the boys from the Physical Education course.

### Examiners

Drs. D. J. Rose, D. E. Best, Milton Clark, C. F. Strosnider, and G. L. Overman were the doctors who gave the examinations.

In order to insure that each boy is able to undertake the exercises which the boys take each morning, a complete examination was given. It was similar to the one given to draftees upon entering the Army. The Physical Education course, which has recently been added to the GHS curriculum, is required of all senior boys and boys who have attained the age of 17.

### Junior Play Issue

Even though it was impossible for this issue of the *Hi News* to include entirely the work of the Juniors, ten Juniors besides the 5 Junior staff members worked to make this issue possible.

Junior Staff members are: Margaret Holt, Elizabeth Stanley, Lyda Winslow, Susan Lupton, and Nell Burns.

Juniors helping on this issue were: Bettie Weil, Pat Stanley, Hilda Liles, Miriam Scholar, Dot Lassiter, Elizabeth Thomson, Virginia Faison, Jean Gibson and Skinny Ellis. Ellis Bland and Ed Strickland were responsible for the pictures in this issue, (See masthead, page 2, for names of Junior ad solicitors.)

## Plans Being Made For Tonsillectomies

That 115 GHS students have diseased or enlarged tonsils was discovered in a recent survey made by Mrs. A. H. McManus, registered nurse in charge of the GHS health room.

These students are to be examined by the draft board doctors to determine the most serious cases. Arrangements will be made so that the diseased tonsils can be removed before the end of school this year.

Speaking to the faculty March 24 on the general topic of health, Dr. D. J. Rose, a member of the school board, said, "I am convinced from a long practice that a person with definite physical handicaps cannot develop mentally. Some defects cannot be corrected, but others, such as infected tonsils and bad teeth can be, and every effort should be made to see that such defects are corrected as early as possible."

## Miss Gatch Directs Annual Junior Play

Have you ever been in a daze? Did you ever have a deadline to meet? Did you ever have a teacher tell you that if you didn't have that piece of work in *on time*, she'd...

If you have, you'll be in complete sympathy with a certain senior at Brookfield College (the setting for "Spring Fever") who is in quite a deadline predicament, and the chances are you'll like "Spring Fever", the Junior Play, to be presented tonight at 8:30 in the high school auditorium.

The setting of the play is in the living room of a rooming house near a small coeducational college in the East on the day before commencement.

### Twelve Characters

Mrs. Spangler, the landlady (Elizabeth Hardison), is greatly overworked and fretful. Ed Burns, a chemistry student (Frank Roberts) furnishes explosions enough to keep you on the jump throughout the play. Lou Herron (Jean Gibson) is a journalism student who rushes in now and then to use the typewriter and—well—to see Ed, too.

But how would you like to be in Howard Brant's shoes? Howard (Ellis Blann) has to write a term paper on zoology, or he won't be able to see Ed, too.

—Spring Fever—

## Elections Coming Up During April and May

Double spring elections are rolling around for the second consecutive year in GHS with the SA voting on April 24, and the classes voting on May 7. So all you smart politicians get that "you vote for my candidate" look in your eyes—but soon!

"Although the spring elections weren't as successful as we would have liked them to be when they were begun last year, they did help the class activities to organize sooner last fall. This year we are striving for a 100 per cent participation," said Ruth Weil, chairman of the Board of Elections.

### Hand In SA Nomination

From April 13-17, SA nominations are to be handed in, and registration days are to be on April 20-21, when the students can register for both elections. The campaigning day has been set for April 23 and on April 24, the voting. If a revote is necessary, it will be taken on April 28.

Students may be petitioned for class offices from April 27 through May 1. May 4 will be a registration day for those students who failed to register for SA elections. Campaign speeches will be on May 5-6 and students will go to the polls on May 7, with the revote, if necessary, being held on May 11.

Members of the Board of Elections are: Ned Hart, Virginia Christenbury, Margaret Magill, and Jack Cobb, with Miss Ruby Barrett, adviser, and Ruth Weil as chairman.
