Davis Sons, Zebulon, jumped into his company's new Piper Cub and rushed the paper over in time for distribution. This was probably the first time any high school paper in the state has been delivered by plane. Seen in front of the plane are Mr. E. L. Roberts, Hi News adviser, and Mr. Davis.

### Outdoor Life Offers Prize For A Pledge

To arouse all Americans to the realization and fulfillment of their duty in saving and using wisely this country's vanishing natural resources—its soil, forests, waters, minerals and wildlife — Outdoor Life magazine is offering \$15,000 in cash awards for a Conservation Pledge, similar to the Pledge of Allegiance to the Flag, which may be adopted by schools and all civic and patriotic groups, both youth and adult. Announcement of this competition is made in the magazine's February issue. First prize is \$3,000.

"Leading conservationists warn that unless we take definite, practical measures to conserve our natural resources, we're in danger of becoming a nation in need," said Raymond J. Brown, editor. "Every citizen should be made aware of this exigency and urged to do his part toward safeguarding our country's God-given treasures. Such is the aim of this competition — and the biggest isn't money, it's national security!"

The competition is open to everybody except employees of the publishers of OUTDOOR LIFE and their families. Pledges must not exceed 30 words. Each pledge must be accompanied by an essay of 1,000 words or less on, "Why America's Natural Resources Must be Conserved." Entries must reach the magazine's offices, 353 Fourth Ave., New York 10, N. Y., not later than July 31. Second prize is \$1,000; third, \$500; fourth, \$100; with eight prizes of \$50 each.

### Studio Mouse Spies On The Goldmasquers

By Leah Lloyd Kinshree

Tonight is the night! Tonight the Goldmasquers in collaboration with the Varsity club will present "Janie."

Tonight the girl chosen Varsity Sweetheart will be announced.

Yes, tonight is definitely a big night and I'm going to see it all. You see I've really been in on all this. Of course, nobody else knew I was there, but I was. Oh! gee, maybe I'd better introduce myself. My name is Janie V. (for Varsity) Goldmasquers and I'm just an ordinary little mouse; that is, I was until I was initiated into the Goldmasquers. You see, I used to live where the studios are until one day I heard Mr. Britton talking. When I heard him it decided to move because when he says a thing he usually means it. He had just said he intended to build the studio there. After hearing that, even though I did have to move, I wanted to stick around and see how things would come out. So I moved to a nearby residence, established myself, and set back to see what was going to happen.

Well, I watched them fix the 'clottiest' studios I ever saw. I saw them practice "Janie" until they were blue in the face and kept right on. I saw them fix up the lobby, too. So you see I really was there. And you'll be there tonight, that is if you don't want to miss the biggest show in a long time.

### Present Play "Janie" Also This P. M.

On Friday night, March 8, the Goldmasquers' studio will be dedicated.

The cast includes: Narrator, Vassie Balkum; Announcer, Ned Champion; Mrs. Hatch, Gaynelle Sauls; Dr. Angel, Robert Andrews; Mr. Adams, Billy Ray; Mrs. Adams, Ava Crumpler; House Angel, Bill Watkins; the Lord, Hal Grant.

There will also be speeches on the program, including talks by Mr. Britton and Mr. Twiford.

In addition to the dedication a play "Janie" will be presented.

An investigation has found that GHS is the only school in the U. S. to have a completely outfitted studio.

The four divisions of the studio are: the production office, furnished with a desk, file, and mahogany furniture, padded with green leather; Control room, having a console, two turntables, and a studioette which is used for transmission to WGBR; reception room, furnished with chairs, table, floor lamps, and other modernistic decorations; and the broadcasting studio, equipped with mikes and furniture padded with blue leather.

The main stage will be used as a large broadcasting studio for certain occasions.

The work on the studio was begun in July. Those working on it were members of the stagecraft class, dramatics classes, and industrial arts classes.
