## Winslow and Andrews Selected For Honors

Martha Winslow

### Two Students Voted Most Representative

Martha Winslow and Robert Andrews have been voted the most representative students—girl and boy—in Goldsboro High School by the student body.

Select on of these two outstanding students came after two ballots had been taken to decide the winners.

Ruth Caudill and Herbert Howell were the runners-up in the balloting, and it was between these two and the winners that the final selection was made.

Students in the junior and senior classes nominated nine girls and six boys for most representative and then students in all classes cast ballots to determine the winners.

Those nominated and placed on the initial ballots were Kitz Bridgers, Ruth Caudill, Susan Gardner, Susan Jenkins, Constance Johnson, Marilyn Johnson, Susan Smith, Shirley White and Martha Winslow; and Robert Andrews, John Duke, Jack Hauser, Herbert Howell, Otis Pate, and Daron Ward.

In selecting the most representative students in school, scholarship, leadership, character and school activities are considered. Although this is not a scholarship selection, the students selected must be of average ability as to scholarship. The main idea is that students look upon the most representative as being all-around, good school citizens.

Martha Winslow has been an outstanding student in GHS in many respects. This year, although a junior, she has been SA president. There are but few seniors in school this year due to the change to the twelfth grade system.

In addition to her work as SA president, she was recently named secretary of the Eastern District of N. C. S. S. C. She has been a delegate to the N. C. S. S. C. meetings at High Point, as a sophomore, at Wilmington and Kinston, as a junior.

She has served as vice-chairman of the War Activities Board.
