### Biology Class Studies Food

In the third period Biology class a study of "The Sources of Food" is being made. One of the main topics under this subject is conservation. The class, taught by Mr. Johnny O'Neal took a field trip this week to one of the local farms. The purpose was to gain first hand information about solving problems of the soil. The County Agent and the owner of one of the farms were very helpful to the class in explaining what had been done to improve the farms.

Various members of the class chose a topic to report on that would help them understand the need of conservation. Some of the reports were "forest fires," "irrigation," "soil erosion," and one on "how the tree surgeon operates."

As a result of the field trip and oral reports, the class decided to have an essay contest to stimulate interest. A planning committee of three of the students will be the judges and the winning essay will be printed in the next issue of the Hi News. The News-Argus will also print excerpts from it.

Chemistry easy!! Just who said so?

Whoever it was is out of the know.

Latin and Spanish or maybe even French.

It's all Greek to me and that is a cinch.

Geometric figures, so wide and so tall.

I'm lucky if it comes out any figure at all.

Shakespeare and Milton would turn where they lay,

If their words they heard read in our own special way.

I'm in the fog in every single class

Comes report card time, I'll pray that I pass.

### Baby-Sitting Blues Chanted

By Faye Parnell  
Have you ever had those baby-sitting blues?

You know when someone asks you to take care of their darling cherubs while they try to escape them for a while. The money they give you never seems to make amends for the numerous glasses of water Junior asks for and the many times little Susie wants her trap-door unbuttoned. And that squalling baby. The catch of it is that their dotting parents always promise that they won't be a bit of trouble. And of course there always is a big bit of trouble.

As soon as I delve into the mysteries of Gregg shorthand, I hear a plaintiff wail from Susie that Junior is pulling her hair. As soon as I get them settled the baby wakes and it's a bottle to heat for her. By that time I have given up all hope of learning shorthand and started figuring out a easier way to make a living than baby sitting.
