## Boy's Club Needs Financial Support

"Good kids don't grow on trees."

The above sentence is the saying that promoted National Boys' Club Week which started March 28.

To commemorate the occasion, the local Boys' Club, under the direction of Mr. Robert E. Sharpe, plans to plant pine trees in and around the Rocky Mount community.

The local Boys' Club, with the help of Mr. Charles Johnson of WCEC, is the same organization that brought Mel and Tim Thomas to Rocky Mount on March 1.

This concert, by the way, had quite a disappointing turnout; but, according to Mr. Sharpe, there may be more--Jerry Butler and Clarence Carter, for instance.

"I have connections," says Mr. Sharpe.

And, obviously, he does.

Men who help sponsor other Boys' Clubs--such as in Greenville, Goldsboro or Raleigh--occasionally discuss ideas with Mr. Sharpe for future programs and projects.

Some future projects mentioned by Mr. Sharpe include a marathon, a RMSH talent show, and an Easter holiday fashion show.

When Mr. Sharpe first introduced the Boys' Club to the RMSH student body during the last academic year, most students knew little or nothing about it.

Now, it has become a vital component in the structure of the Rocky Mount community.

However, like most organizations today, the Boys' Club needs some financial support in order to exist. And since it plays such a vital role in the community, other community organizations are encouraged to support it.

# SCHOOL BUS

## Driver's Training Ends For New Bus Drivers

It is a hard tiresome job, but twenty-eight young men of RMSH welcomed the challenge. These stout hearted men applied and underwent the training to become certified RMSH bus drivers.

The training began with classroom sessions March 4 and lasted two days. The most important part started March 8 when driving test began for the candidates.

Twenty-eight hopeful candidates reported to take the written test. This exam, much like the regular driver's test for an operator's license was satisfactory completed by twenty-four of these young men.

To these twenty-four young men was administered the bus driver's test of driving abilities. The maneuvering, control, and safety of the bus were some of the things to be considered during this segment of the training.

Their training is complete and essential in that each day hundreds of lives depend upon the capabilities of these drivers. With three graduating seniors on the roster of drivers there are three certified busmen who have completed this training and are already competing for these positions for next year.

## Driver's Ed. Moves On In Spite Of Collision

One down and one to go. All sensible motorists beware, the driver's education classes have taken to the road once again.

In a recent driver's education driving class, instructor Mr. Robert Hines was involved in a true rarity, driver John Ess was involved in a real driving situation, and the lady in

fault was shocked speechless. This was the situation as Mr. Hines and John were involved in a two car accident after the change of a traffic light.

As the light changed a lady ran a red light and struck the left front fender of the driver's education car. The car resting at the corner of Goldleaf Street and Atlantic Avenue received approximately \$200 in damages and is currently out of order pending repairs.

No one was seriously injured in the accident, only the lady received injuries as she hit her nose on the steering wheel. The class was finished in another car which is now the only car operating. John received his certificate with no more accidents which shows that his driving is not so bad.
