A Page From a Freshman's Diary

Monday: November 15, 1937. My, I was sleepy this morning! Even a freshie takes a week-end sometimes. I didn't get today in the very first class—an English exam on Thursday! I just know I'll fall below a C for my first flounder and dumber. Next, I forgot I still had my chewing gum, but it passed uneventfully. But "Course I had to stay in. Chapel" didn't matter. I who am supposed to know a little grammar and arithmetic passed easily. It was a quick goer. I can't seem to take civics when they don't count, and then cooperate in passing notes. They'll just not do one thing but hold it until everyone is looking back and then pass it maybe three times. What a scare I had! Thank goodness it was not taken up. I finished my lessons before the end of study period, so I went the literary period. I hope tomorrow so many things will be different.

Supt. Grigg Talks To Student I

Claud Grigg gave an important talk to the students in chapel on November 8. He said, "We, in scholarship, Albemarle School emphasizes scholarship less than have the schools past. However, we believe things equally important, the physical development of the initiative, self-reliance, as a result. We correct for an administration which is not a student body to conduct properly because it wastes time because of military discipline of force. It is impossible for students to an autocratic school. It is impossible for students to adjust themselves to a democratic society."

Prior to Mr. Grigg's report sang, "Goin' Home—The One Rose."
