

TWELFTH GRADE GRADUATES

Colors and Flowers

Blue and white have been chosen as the colors of the graduating class, not only for their beauty but also for the qualities they represent.

Blue is symbolic of loyalty, devotion, friendship, justice, truth and careful observance of duty. The graduates are devoted to the many friends they have made and will strive to be loyal and true to them always. They also pledge loyalty to their school and its ideals. To the best of their ability, they strive to show careful observance of duty in school and home.

White designates purity, dignity, innocence, and, above all, cleanliness of life. The class wants to lead pure, clean, Christian lives and to be true to themselves, as well as to others.

The red rose, chosen as the floral emblem, signifies beauty, love, peace, and valor. These students believe that the accomplishments of man and the appreciation of beauty in nature and all phases of life mean more than mere physical beauty. They have love for their schoolmates, teachers, parents, and God. Because it is unsurpassed in beauty and significance, this flower is appropriately chosen by the class.

—Rachel Leonard.
