

AHS Track Team Loses To Raiders

A.H.S. trackmen were defeated last Thursday by Lexington High's track team by a score of 51 to 38. This was the first track meet of the year for Albemarle.

Wade Smith was the big gun for the A.H.S. team. He won first place in the 100 yard dash and the broad jump, and second place in the 220 yard dash, piling up a total of 13 points himself.

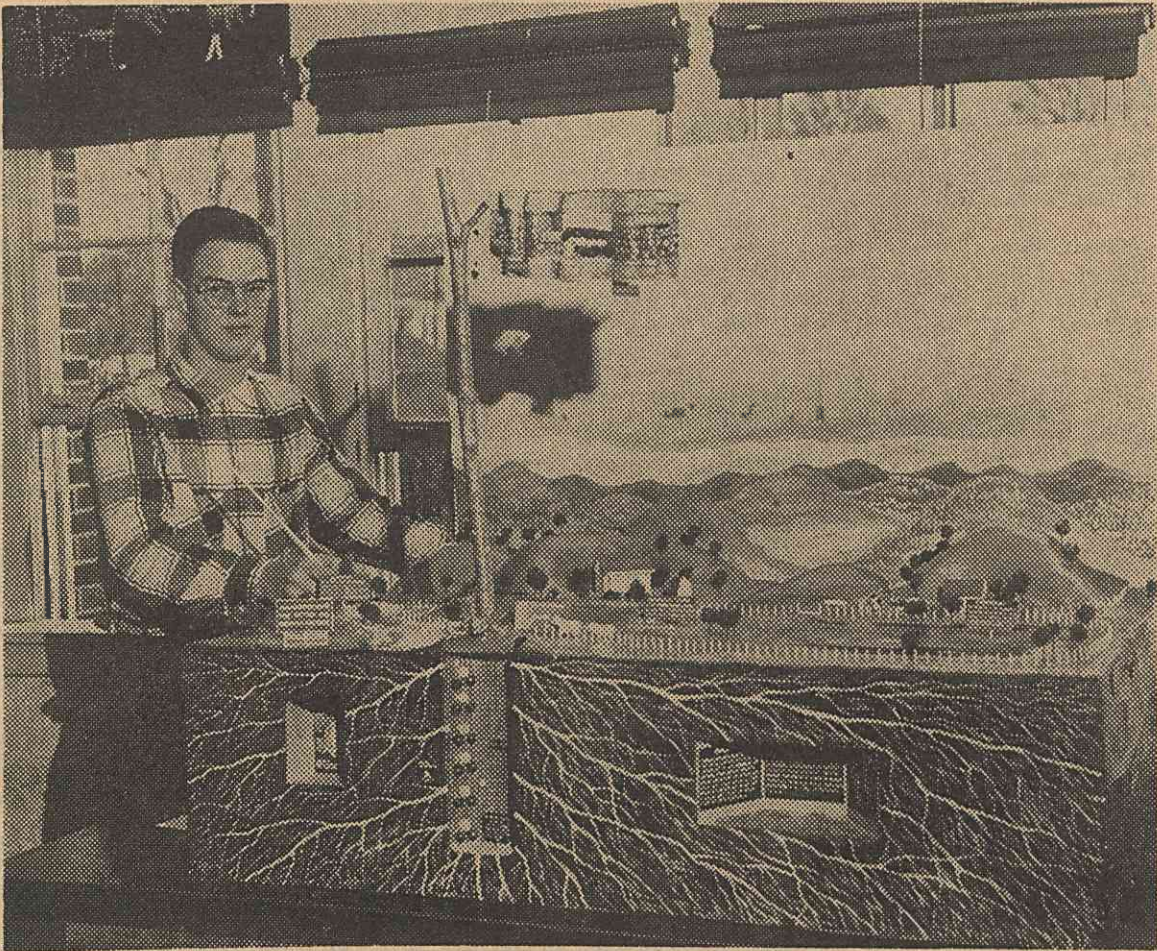

Larry Lisk placed second in the high jump and the shot put. He was also on the mile relay team, which consisted of Joe Kluttz, Charlie B. Smith, and Punk Gantt.

Skipper Gantt won second place in the 100 yard dash and third in the broad jump.

Edshay Brunson finished second place in the 440 yard dash, Ronald Crawley won second place in the 880 yard dash, while Ronald Hudson crossed the finish line second in the mile run.

Jerry Lowder rounded off the slate by placing second in the discus throw.

A good reputation always proves to be good business capital.

Prize Winning Science Project

Robert L. Smith is shown with his elaborate exhibit depicting the working of photosynthesis, the process by which plants manufacture their food. The project won first place in the biological science division of the District Science Fair at Salisbury Saturday and will be entered in the state contest to be held at Duke University next week-end. It shows the foodstuff being taken into the plant and the process through which it goes.

mond, a demonstration of electroplating.

Polly Tucker will have a vitamin display; Betty Hall, a pyrex display; and Luther Kimery, a model of an old time still. Don Swaringen's capacity operated electric light and John Ritchie's photo-electric cell will be shown. A new musical instrument, which she invented, will be demonstrated by Joan Melton.

Physics

Some models being displayed in the physics unit are Dickie Cashwell's wind tunnel, Gareth Lowder's air compressor, Leroy Swaringen's home with lighting, and Ned Lowder's carbide lighting system.

Skipper Gantt's combustion apparatus, Edward Hatley's giant tesla coil, Bill Beeker's cloud chamber, and Bill Fisher and G. C. Wilhoit's sending and receiving radio set will be displayed among the many other projects. Johnny Richardson has constructed a Jacob's ladder which Mr. Hatley says doesn't completely reach the sky.
