Aries (Mar. 21-April 20)-The only thing on your mind lately is that special someone in your history class. Do not be afraid to let that someone know how you feel about him/her. It may work out for the best.

Taurus (April 21-May 21)-With the warm weather starting to come, love is in the air, or at least it is with you. You seem to be falling for every person you come in contact with. Do not get too carried away with this because it will only end up hurting you in the end.

Gemini (May 22-June 21)-Your friends seem to be asking a lot of you lately. Remember you do not always have to give in. It is okay to turn them down, because if they are your real friends then they will always be around for you.

Cancer (June 22-July 23)-The changes you have made in the past are starting to work out for you. Do not let anyone discourage you from making any more future plans. It's your life, so live it like you want to.

Leo (July 24-Aug. 23)-The time in your life has come to get up and make a change. Stop moping around. Get out and do something. Go shopping; maybe it will make a difference in your life.

Virgo (Aug. 24-Sept. 23)-With school starting to wind down you are starting to let some of your school work slip. Unless you intend on

repeating the same grade again you need to focus on your school work.

Libra (Sept. 24-Oct. 23)-Being in love is something that you really do not care about at this time in your life. If that is the case then maybe you should focus on spending more time with your friends.

Scorpio (Oct. 24-Nov. 22)-Things in your life couldn't be better. Be careful, because before too long things are headed for a plunge!

Sagittarius (Nov. 23-Dec. 21)-You and your friends do not seem to be getting along at this point in time. It's time to make a decision if you should make new friends or keep the old ones. Remember your real friends will stick beside you.

Capricorn (Dec. 22-Jan. 20)-You seem to be having a change of attitude in the way you look at things. You could use this to your advantage or even to your disadvantage. A change of friends could help you along the way.

Aquarius (Jan. 21-Feb. 19)-Your mind is starting to drift off to an imaginary world. You need to wake up and come back to reality, or you will miss out on what's really going on.

Pisces (Feb. 20-Mar. 20)-Your ex-lover is wanting to come back into your life. It's your decision whether or not to go back into the same relationship. On making your decision, remember how things were back in the past.

Well, it's that time again! Prom time!! As April gets closer and closer we all get excited about the prom. Most of us worry about things like where to eat, what to wear, and who to go with. Sometimes, we are too worried about things like that to ever think about what to do after the prom. Most of all the students will definitely PARTY after the prom, but some go to the prom first then eat. Prom Fashions

by Allison Hudson

Are you having a problem deciding what color dress to wear to the prom, or maybe who you are going to go with to the prom? Well, do not worry. You are not the only one. For the last couple of weeks I have gone around to find out what everyone is wearing to the prom and how they are going. Many of the girls that I have talked to say that they want to have a different dress from everyone else, and that is great. There is only one tiny problem. When you have over 200 girls that all want one of three colors the dresses all start to look the same. It can definitely be frightening to find out someone else has your dress. Believe me, I have experienced it before.

The main colors that will attend the junior/senior prom are elegant black, sleek white, and pretty purple.

The way to go to the prom is with a date. Some say that dates are no fun and they would rather just be with their friends. Others say that they are going with a friend date. Then, surprisingly a few say that they are not going to the prom.

Here are the results from the survey that I conducted.

COLOR OF DRESS

40% Black dress

30% White dress

15% Purple dress

15% Other color (red, green, gold, silver)

WAY TO GO!

50% With a date

20% With a group of friends (same sex)

20% With a group of friends (co-ed)

10% Are not attending the prom

Bush to Play at Prom!

by Katie Mabry

This year AHS's prom will be a little different from last year. Since many requests were made for a live band to come and play, the faculty has been working hard to schedule one to come and play at the Agri-Civic Center on April 27. With special connections from two young faculty members, they got Bush to agree to play at AHS's prom.

Bush is a four member group that has hit the charts very fast. The album *Sixteen Stone* has had four songs topping the chart. The members that make up Bush are Gavin Rossdale on the guitar and vocals, Dave Parsons on bass, Nigel Pulsford on guitar, and Robin Goodridge on drums.

Recently the group has been on tour around North and South Carolina. They played a sold-out concert at Winston-Salem's LJV Memorial Coliseum Complex on February 23, and also another sold-out concert in the Charlotte Hornets' training facility in Rock Hill, South Carolina on February 24.

With this kind of change to AHS's prom, the committee hopes to see a lot of people to come to this year's prom. So, if you were planning to come, come and if you weren't hopefully the new addition to the prom will make you change your mind. This isn't the prom you want to miss. See you there!
