

We have four visitors - four little gold fish. Bobby Rice and Miss Calloway brought the fish. Bobby has named his, but Miss Calloway has not named hers.

Since it is almost Christmas, the Fifth Grade has studied "The Sistine Madonna," which they thought very interesting. It is the picture of Mary and the Baby Jesus. Raphael painted the picture. He is called the most beloved of artists. The real picture now hangs in Dresden Germany.

THE FOURTH GRADE

Christmas

Christmas Eve is almost here,
Children with the best of cheer.
Around the fireplace we are seated,
While the stories are repeated.

Then we jump into our bed,
Turn out the lights and prayers
are said,
We wait for Santa Claus to come.
He brings us joy and lots of fun.

-Doris Hedden

We are busy practicing our Christmas program for Chapel. We are learning much about Christmas along with our program.

-Clarence Munger

The Fourth Grade is making Christmas cards and posters. Some of us are making Christmas trees, some camels, and others candles. We have fun making them. We all made Christmas stockings. We are going to have a Christmas tree in our room.

-Evelyn Phillips

Yesterday the nurse visited our room. She gave the test for tuberculosis. Nineteen in our room took the test. She will come back on Thursday to look at our arms.

-Reba Calloway

-----o-----

THE THIRD GRADE

We have morning inspection in our room every morning to help us form the habit of coming to school with clean hands, faces and teeth, stockings, collars, shirts, and handkerchiefs. Our doctor is Johnny Crunkleton, and the nurse is Betty Potts.

-Hubert Johnson

-----o-----

THE SECOND GRADE

Mary Crunkleton got her "Dent-o-Ploma" this week.

We have two goldfish. We will name them today. They have to be fed once a day. Our Nature Study Book tells us about goldfish.

We are making a Christmas present for our mothers and fathers.

We have a Christmas scene on our sand-table.

We will have a Christmas tree in our room Thursday, December 22.

-Mary Phillips
