

Wayne Hicks have read the most.

The Fifth Grade has studied two art pictures. First we studied a "Road through the Trees." It was painted by Corot. Then we studied "The Horse Fair" by Rose Bonheur. Both of these pictures hang in the Metropolitan Museum of Art in New York.

-Betty Speed

The Fifth Grade went to Lindenwood Lake on an Easter egg hunt. Then we had a picnic lunch. Maggie Talley found the most eggs and won the prize.

-Bessie Penland

The Fifth Grade play is called "Off with their Heads." The ones who took part are: King, Leon Potts; Queen, Jean Keener; Princess Kindly-Heart, Victoria Calloway; Sir Swift-as-Wind, Wayne Hicks; Three Wise Ones, Mary Lou Hedden, Bessie Penland; Maggie Talley; Fairies, Audry Aiken, Betty Speed, and Maxine Lambert. This play was given April 14.

-Frances Crunkleton

THE SIXTH GRADE

The Sixth Grade was glad to have a visitor Monday. Freda Mincey, who was a pupil in our grade until she moved away last fall.

Monday morning we went on our Easter egg hunt. We carried with us our lunch, which we ate while two girls hid our eggs. The girl and boy who found the most received prizes.

R. L. Reese has been out of school several days with the measles.

Jessie Vinson has missed several days of school because of a sprained wrist.

THE HIGHLANDS SCHOOL

We should all be interested in school, especially the Highlands School because it helps the children and builds up the community.

The Highlands boys and girls have basketball teams. Our teams could really play better if they had a gymnasium so they could get more practice.

We have programs in the theatre where each grade take turns in giving a program.

The movies that are shown to us free are very helpful. They teach us many things about other countries. This helps very much in geography and history.

The lunch room is very helpful because the children can get a hot lunch instead of bringing a cold lunch. The food is well prepared and is very nourishing.

We get the radio every Friday. In music appreciation we study the string, wood wind, brass and percussion instruments. We hear some of these each Friday.

We should all respect our principal and teachers. We are inclined to think sometimes that the punishment we get is because the teacher does not like us, but this is not true. It is for our own good.

We should all try to help build up our school because of the many things we have to be proud of.
