Grade news continued

FIFTH GRADE NEWS

In the fifth grade, in health, we are studying about the heart. We have learned that the blood flows to many different parts of the body from the heart. We learned that the blood is blue until it flows through the heart to the lungs and it gets oxygen, then turns red.

Wallace Henry

In social studies we are making reports of famous people. Their occupations of the people were inventors, presidents, and musicians.

We have also been studying the states and capitals. Doug Potts and Bill

Zoellner have already spelled them.

Jimmy Bryson

In the fifth grade we have done some grouping. In the six groups there are five people in each group. We did this because we wanted to improve our grades as much as possible. In this way we can share, and help each other while the teacher is working with others.

Baker Crane

We have a new North Carolina map. It is like a black-board. We have some of the counties on it now, states that touch it, and boys and the ocean. We can use it very much.

We wish you a Merry Christmas and a Happy New Year. God be with you this Christmas.

Barbara Mehder

SIXTH GRADE

The sixth grade has been studying about Ancient Greece. Its history was very interesting.

In Science, we have been studying about the different kinds of airplanes and their uses. We learned that an airplane must be pressurized so the crew and passengers can ride comfortably. We learned the parts of an airplane and how a jet engine differs from a rocket engine. Jack Crisp and Bruce Crane brought their model airplanes to school.

We are going to make decorations for our Christmas tree. We have already made a few. We might put our tree up on Thursday.

SEVENTH GRADE

This six weeks in the 7th grade we choose our officers, Pres., Harvey Wilson; Vice Pres., Kenneth Wilson; Sec. & Tres., Gail Calloway; Reporter, Gerry Crane.

Our grade mother has visited us several times this six weeks. We have planned our Christmas Party and we can hardly wait to have it.
