

MAKE THE BOY GLAD

With a watch, and start him on the way to manliness. A watch is a real Missionary, teaching responsibility to the boy who carries it. I have given much thought to watches for boys, and have a fine selection in stock. The prices are very reasonable.

I, -----, promise to give brother and sister members of the "Beneficial Order of Shifters" any aid possible on whatever they may request.

The Albemarle High School, however, has one ever-growing organization with a very large membership. In fact, every student in High School is a member, although some are considered better members than others. Anyone familiar with this club and its work is sure to find out that it is doing nothing whatsoever. Our teachers are especially familiar with this club, patented 1922, under the name of The Sons of Rest, "with apologies to the Chanticleer," (affiliated with the Anti-Work League and the Loafers' Union founded in the Procrastination Period by Ima Bum, B. COMMENCEMENT DEBATE.

(By Mary Anderson)

A splendid debate will be held at the Commencement of the Albemarle High School. The query, Resolved: "That the United States should adopt a policy of further material restriction of immigration," is very interesting and is one of our great national questions today. The affirmative will be upheld by Martha Austin and Ray Lowder. The negative will be defended by Robert Cranford and Charles McSwain. These debaters were selected in the Preliminary of Triangular Debate as a second team. All of them are able speakers and have given the subject both study and thought. We feel sure that every one will be repaid for coming out to hear them.
