OUR HIGH SCHOOL MUSIC

(By Annie Drye.)

This year our school was very fortunate in securing the services of Miss Kathleen Huntley as head of the Music Department. Under her supervision and with the assistance of Miss Emma Davis, the chorus has made splendid progress.

At the first practice the chorus was organized into three parts, first soprano, second soprano and alto. The chorus was found to consist of thirty-one girls, and four boys from the high school.

The chorus made a creditable showing during National Song Week. It

gave several selections during the program, which was held on Friday night of that week. It also co-operated with the Baptist choir in a song service during the revival meeting held in that church early in May.

Besides the chorus numbers which have been rendered throughout the year, special music in the form of duets, trios and mixed quartettes has helped to make chapel programs more interesting. The chorus, however, has been for the past two months spending their practice periods working on commencement songs, and they hope to entertain the public with some of their selections.

Student recitals, which have been of great benefit to the pupil, have been held regularly each month. Each pupil has been required to attend all these recitals and make an introductory talk on her selection before rendering it.

Let us hope that the good work which has been accomplished this year will furnish an inspiration for the following years, and that our music department will become one of the foremost ones in the high schools of the state.
