BARBER SCIENCE CLUB

Elizabeth Hardison, *President*
Ella May Shirley, *Reporter*

The Barber Science Club, the club that wants to add variety and spice to the lives of students interested in science, held its first meeting of the year in its regular meeting place, Room 16 of the Science Building, on Tuesday, Oct. 14, at 8:00 p.m. The old members were there to welcome the new ones and to present a program centering in the theme of "Chemistry and the Bible." After the program the usual "socializing" began in the physics lab. We think the Barber Science Club can do something for you. Can you, and will you, do something for it? Come on and be there for our next meeting.

COLTON ENGLISH CLUB

Doris Harris, *President*
Edith Camp, *Reporter*

On Oct. 2, the Browsing Room witnessed the first meeting of the Colton English Club for the present school year. At this time, Shirley Hurwitz was elected vice president, and Janie Nance was elected Browsing Room chairman. Doris Harris stressed the fact that this room and the books in it are available to any student at any time even though it is only used by groups for hall meetings and English Club meetings. The program for the first meeting consisted of the creative writings of Meredith students. It included short

stories by Esther Greene and Mary Humphrey; poetry by LaVerne Harris, Frances Alexander, and Gloria Mayer; and selections from *With A Song*. After each reading all present were invited to make any constructive criticisms which they felt were needed. Contributions made by the listeners stimulated thought and enabled more people to take part in the program.

FREEMAN RELIGION CLUB

Frances Ward, *President*
Idalia Oglesby, *Reporter*

Has anyone ever told you that "Dr. Mac" disapproved of Saturday classes? Well, he does, and anyone who attended the Freeman Religion Club on Friday evening will heartily back me in this statement. You see, we ate supper at Dr. McLain's. What wonderful food we had!

After supper we had our first meeting of the club for this year. Our program was a very interesting discussion of "the things we did last summer." To start the discussion, Judy Powers, our program chairman, read us a letter from Evelyn Pittman, who was last year's program chairman. Evelyn told about the wonderful experiences she had in Vacation Bible School and about the night she substituted for her pastor who was out of town. Gloria Mayer went all the way to Missouri to do her good work. Ruth Summerlin also had the urge to roam, for she went to Kentucky, where she con-

ducted Bible School. Zella Woody added a postscript to Ruth's story by telling about the train ride that she, Zella, took with a car load of soldiers to another part of Kentucky. Marjorie Wilson varied the program when she told about doing field work for the Sunday School Board. Think over the things you did last summer. Were they as wholesome and yet as thrilling and enjoyable as these? Perhaps you'd like to do such work next summer.

And now to let you in on a little secret. You won't dare miss the next club meeting, because Carolyn Massey is going to show us some pictures that she took this summer when she went to Denmark to the Baptist World Alliance. Watch the bulletin board for time, date, and place, and then GO.

HOME ECONOMICS CLUB

Iva Hurst, *President*
Rosemary Dean, *Reporter*

The first Home Economics Club meeting of this year was called to order on October 2. A very interesting program was presented by Carolyn Knight, Miss Ellen Brewer, and Gayle Wells. Carolyn and Miss Brewer gave some entertaining side-lights of their trip to St. Louis to the National Home Economics Association meeting. Gayle told about her work as a dietitian at a Girl Scout camp this summer.

There are many new girls in the home economics classes this year. Many of them have taken an active part in 4-H Club work in their home counties. Peggy

White represented Edgecombe County in the district dairy foods team for two years. She was also a winner in the county dress contest this year and is now finishing her term as county council president for the past year. Frances Ann Lancaster, also from Edgecombe County, is eligible for a trip to Chicago on the basis of being the State Dairy Foods Demonstration champion. This year she is beginning a term as secretary to the state 4-H Club council, and is Edgecombe County's entry for the state record book contest. Frances was also presented a special award of fifty dollars at Achievement Day this fall for making the greatest 4-H contribution over a period of four years.

McDOWELL MUSIC CLUB

Joy Stillwell, *President*

The first meeting of the McDowell Music Club was held Wednesday night, Oct. 8, in the Hut. The president presented Mr. Stuart Pratt, club sponsor, and the other officers, who are Frances Smith, vice president and Frances Spruill, secretary-treasurer. After a brief business meeting, an interesting discussion of program music was held. Refreshments were served. An invitation for membership is extended to anyone who is interested in music.

SOCIOLOGY CLUB

Katherine Wyatt, *President*
Barbara Francis, *Reporter*

The Sociology Club extends to its members an opportunity for discussion of the social problems which we are meeting today. The club is composed of students who are taking courses in sociology. Programs are planned in view of the main interests of the members. Speakers who are authorities on particular problems are often invited. The club will hold its first monthly meeting Tuesday, Oct. 21 at 7:00 p.m. in the Hut. An interesting program has been planned by the members about their summer activities. All members and prospective members are urged to attend.

TOMORROW'S BUSINESS WOMEN

Mary Frances Keene, *President*
Anne Boykin, *Reporter*

A guest speaker, Miss Margaret Weber, opened this season's meetings of Tomorrow's Business Women on Oct. 3. Miss Weber is secretary to the president of Carolina Trailways Company in Raleigh. Since her position is one varied duties and great responsibility, Miss Weber has a rather exciting job. She related to us many of her un-

With the Class of '47

RUTH MILLER

Ruth Miller—of course, all of you remember her—the charming brunette in last year's graduating class with the smiling eyes and smooth voice—the music major whose playing was as stimulating to our souls as her smile was to our hearts. Now we remember Ruth in another way. She is the Intermediate State Leader of the Baptist Training Union Department. Theoretically, Ruth says, her work is dealing with Intermediates; but in this type of work she finds herself helping and mixing with all ages. The day after school was out last spring Ruth began her new job and has been "going strong" since that time. An especially attractive aspect of Ruth's work, and for all like her who want to travel, is that she travels about three weeks out of every four. "One of the nice things about this," Ruth says, "is that you always see so many Meredith graduates and prospective Meredith students."

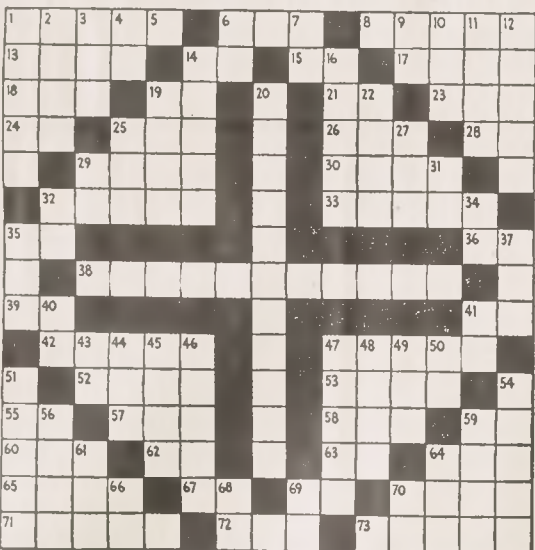

usual experiences, which were both entertaining and helpful.

The club programs for this year will be a series of studies in different fields of business. They will be planned with an eye to being useful in vocational practice after graduation.

Does a cross word make you happy?

ACROSS

- 1 Prepares food by heat (Electricity does it)
- 6 Make clothes (Electricity helps)
- 8 Radio entertainments (Electricity brings 'em)
- 13 Wire that brings electricity to you
- 14 Seventh note of scale
- 15 Accomplish or perform (Electricity can)
- 17 Trade or exchange
- 18 Front end of elephant (Watch out!)
- 19 Toward
- 21 Two-thirds won (Excuse it, please!)
- 23 Suffix meaning condition or state
- 24 For instance; like
- 25 In what way or manner
- 26 Likewise not
- 28 A male person
- 29 Be it ever so humble, there's no place like it
- 30 Always (Frequently used to describe electricity's readiness)
- 32 Electrical energy (And it does a lot of jobs)
- 33 The Electric Hour—comes to you by this
- 35 When your electric alarm wakes you up
- 36 North Dakota (abbrev.)
- 38 A useful material agency which exhibits magnetic, chemical and thermal effects—used in every room in your house

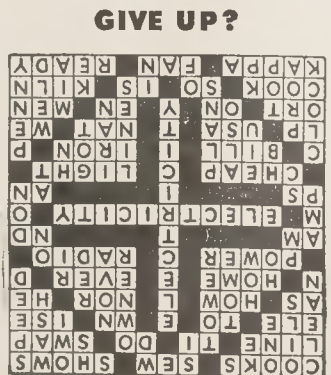

know you're getting twice as much electricity for your money as you did 20 years ago?)
72 A gadget that makes a breeze by electricity
